Step 6:

If the title has a Google eBook edition, there will be a Google Preview button appearing. You may click the button to view the Google eBook for full text. However whether you can view the full text for the entire book or only certain chapters is at the digression of Google.

#### Step 7:

If the title is an ebook or ejournal, there will be an Access online button appearing. Clicking the Access online button will bring you to the full text if you are within the campus. You will be redirected to Ezyproxy login page if you are outside the campus.

WorldCat Discovery Services deliver an interface that meets end user expectations, while maintaining the expert capabilities researchers and library staff require. The interface is device-independent and automatically adjusts for use across desktops, laptops, tablets and smartphones. There is no need for apps or different URLs for the interface to display appropriately.

To access your USM WorldCat Discovery from your mobile device, just type <u>https://usm.on.worldcat.org</u> at your device's browser.
